# DEC <br> part of Interactivity by RODECA 

## Looking for a unique design?

## Discover the Rodeca DecoStripe products!

Stripes are at the heart of design of the DecoStripe line. They ensure a special eye-catcher and a unique look. Whether as shading for roof
or wall or as a decorative element, DecoStripe products are versatile and give every project a special touch.
The striped design of the Rodeca DecoStripe products is unique and unmistakable.

Product features

| Width | Thickness | Up-Value | Weight | Fire classification |
| :---: | :---: | :---: | :---: | :---: |
| 500 mm | 40 mm | $1.2 \mathrm{~W} / \mathrm{m}^{2} \mathrm{~K} / 1.2 \mathrm{~W} / \mathrm{m}^{2} \mathrm{~K}$ | approx. $4.2 \mathrm{~kg} /$ | B-s1, do |

## Countless colour combinations

make the DecoStripe panel an important part of our interactivity line.
The polycarbonate panel PC $2540-6$ DecoStripe can be used both as a roof and wall element and offers countless colour combinations for The polycarbonate panel PC 2540-6 Decostripe can be
an individual design. Let your project become unique!

## Decorative shading

The offset stripes create an undisturbed diagonal incidence of light. This is how Rodeca DecoStripe products create a pleasant and at the same fciting atmosphere in every room. The vertical incidence of light is reduced which ensures a particularly interesting look. With DecoStripe products, you can not only make optimal use of daylight, you can also enjoy pleasant privacy, for example when used as a partition.

## Choose your colour!

As part of our Interactivity line, the strips on Rodeca DecoStripe multiwall sheets can also be coloured in one colour. If you are interested in
an opaque coloured sheet with coloured stripes, that is not a problem aither. Contact us!

MWS 16-5 DS
The unique DecoStripe variant of the 16 mm multi-wall sheet with 5 layers is a real highlight With UV protection on both sides, you can freely choose whether to lay the side with wid
stripes or the side with thin stripes on the sunny side. The strips on both sides of the panel cre ate not only an unique effect, but also effective shading.

Surface with wide stripes

Product features

| Width | Thickness | Up-Value | Weight | Fire classification |
| :---: | :---: | :---: | :---: | :---: |
| $630 \mathrm{~mm}-1250 \mathrm{~mm}$ | 16 mm | $2.0 \mathrm{~W} / \mathrm{m}^{2} \mathrm{~K} / 2.1 \mathrm{~W} / \mathrm{m}^{2} \mathrm{~K}$ | approx. $2.8 \mathrm{~kg} / \mathrm{m}^{2}$ | B-s1, do |

The DecoStripe variant of the 32 mm multi-wall sheet with 10 layers offers a similar unique effect as the 16 mm variant. Both surfaces have stripes of the same width, which in addition to the special look, also create unique shading. The 32 mm version also offers excellent thermal insulation properties.

## Product features

| Width | Thickness | $\mathrm{U}_{\mathrm{p}}$-Value | Weight | Fire classification |
| :---: | :---: | :---: | :---: | :---: |
| $700 \mathrm{~mm}-1230 \mathrm{~mm}$ | 32 mm | $1.2 \mathrm{~W} / \mathrm{m}^{2} \mathrm{~K} / 1.2 \mathrm{~W} / \mathrm{m}^{2} \mathrm{~K}$ | approx. 3.6 kg | B-s1, do |

## Unique effect

multi-wall sheet can appear opaque to fully tructure create a verding on the colouring. Thanks to our innovative extrusion technology, even the outer walls, webs and diagonals can be coloured differently.

The Rodeca DecoStripe products

PC 2540-6 DS
PC panel with tongue and groove connection
Our panels have been specially developed for use in facades and roofs from $15^{\circ}$. Thanks to their tongue and groove connection, our PC panels can be assembled to form areas of any length without any disturbing connection profies. The special structure of our panels of shells and air chambers guarantee excellent thermal insulation despite maximum light transmission.

16-5 DS, 32-10 DS und 16-N
custom-made multi-wall sheets with closed edges
Rodeca multi-wall sheets can be produced in flexible widths and with closed side edges on customer request. Multi-wall sheets are ideal for use in patio roofs, conservatories, greenhouses, but our DecoStripe products are also ideally placed in areas such as trade fair construction and shop fitting!
